Module 19 Challenge Submission File

Let's Go Splunking!

Make a copy of this document to work in, and then respond to each question below the prompt. Save and submit this completed file as your Challenge deliverable.

Step 1: The Need for Speed

1. Based on the report you created, what is the approximate date and time of the attack?

02/23/2020 at 14:30 (box 1, screenshot 1)

2. How long did it take your systems to recover?

About 9 hours. Download & Upload speeds returned to normal at 23:30 same day (box 2, screenshot 2)

Provide a screenshot of your report:

_time ↕	IP_ADDRESS ↕	DOWNLOAD_MEGABITS ↕	UPLOAD_MEGABITS ↕	ratio ↕
2020-02-24 20:30:00	198.153.194.2	126.91	26.91	0.2089

Step 3: Drawing the (Base)line

1. When did the brute force attack occur?

0900 on Friday, February 21, 2020

2. Determine a baseline of normal activity and a threshold that would alert if a brute force attack is occurring:

Normal activity = 8-34 logins per hour | Threshold = 40 logins

3. Provide a screenshot showing that the alert has been created:
